College Coordinator

Jennifer Tarr
Meeting/Membership Registrar

Rene Atkinson
Membership Coordinator

Dear Colleague,

April 2018

We are delighted that you have joined us for Medical Quality 2018 (MQ 2018). In our new intensive two-day schedule plus pre-conference, we tackle the theme, "Improving Population Health Through Health Equity and Patient Advocacy." Our Scientific Planning Committee has designed an invaluable, high-caliber educational and networking experience suited for medical leaders at all stages of experience. Here's a preview of what to expect:

- Dynamic plenary keynotes with Executive in Charge at the Veterans Health Administration, Carolyn Clancy, MD, and 2018 ACMQ Founder's Award winner Benjamin K. Chu, MD, MPH, MACP, Managing Director at Manatt Health. Previously, Dr. Chu was President and CEO of the Memorial Hermann Health System.
- Our yearly Politics of Medical Quality with a fireside chat between ACMQ President Mark Lyles and the President and CEO of the National Quality Forum (NQF), Shantanu Agrawal, MD, MPhil.
- One of most interactive and popular sessions at past annual meetings returns, the 2018 ACMQ Quality Institute, with President-elect Don Casey.
- Plus, examinations on ACO; lessons learned from populations outside the US; a look at technology tools of the future that are a current reality with telemedicine, digital health, and e-consults; and more.

Furthermore, we have responded to past attendee feedback, and have added more networking time. Our goal is that you return to your offices, practices, hospitals, and classrooms with knowledge that will innovate and streamline your practices in safety outcomes.

Sincerely,

Mark Lyles, MD,
MBA, FACMQ
President

Cindy Lee, MD

Certification in Medical Quality (CMQ)

AMERICAN BOARD OF
MEDICAL QUALITY

The American Board of Medical Quality, with the cooperation of the American College of Medical Quality, offers physicians and other eligible professionals a certification examination to test basic knowledge in medical quality management. The content of the exam is based on the textbook ***Medical Quality Management: Theory and Practice*** and other materials listed on the website.

The CMQ exam will be offered in conjunction with the ACMQ annual national conference, ***Medical Quality 2018***.

For information on eligibility, study materials and other details, please visit the website:

www.abmq.org
or send an email to
abmq@abmq.org

Date: Sunday, April 15, 2018

Time: 9:00 – 11:00 am

Check-in: 8:40 am

Exam site: Senate Room,
Mayflower Hotel

Check out ACMQ's Publications:

American Journal of Medical Quality
ajm.sagepub.com

Medical Quality Management: Theory and Practice
tinyurl.com/MQM2e

Learning Objectives

At the conclusion of this conference, attendees should be able to:

1. Recognize obstacles, expectations, and requirements for a career path in quality.
2. Implement specific principles and skills to increase effectiveness in personal and professional development.
3. Describe actions taken to create and implement a community collaboration team.
4. Implement tactics to enhance cooperation among competitive parties, maintain high levels of involvement, and achieve small-group goals.
5. Identify what outcomes specific quality measures are designed to improve.
6. Explain key elements necessary for an ambulatory quality program and how that differs from inpatient programs.
7. Define and describe implementation science and knowledge translation, realizing their importance in bringing evidence-based medicine into practice for quality health care.
8. Recognize how to incorporate a multidisciplinary team structure in translating evidence into practice through case studies of successful team implementation projects.
9. Identify ways to support and strengthen these multidisciplinary efforts to improve care through evidence and knowledge translation.
10. Identify the difficulties, and solutions, in/to maintaining consistency across multi-site collaborative safety systems.
11. Describe general human factors principles and how to apply these principles to health care safety and quality.
12. Implement human factors principals on teamwork and team processes.
13. Outline the challenges with health IT usability, steps for improving health IT usability, and specific high risk components of health IT usability.
14. Describe basic adult teaching techniques.
15. Interpret the changing political, economic, and regulatory health care environment to continue appropriate and viable application of high quality medical care.

Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Indiana State Medical Association (ISMA) through the joint providership of

Community Health Network and the American College of Medical Quality. Community Health Network is accredited by ISMA to provide continuing medical education for physicians.

Community Health Network designates this live educational activity for a maximum of **18.25 AMA PRA Category 1 Credit(s)TM**. Physicians should claim only the credit commensurate with the extent of their participation in the activity. In accordance with ISMA Standards for Commercial Support, educational programs provided by Community Health Network must demonstrate balance, independence, objectivity, and scientific rigor.

All faculty, authors, editors and planning committee members participating in a Community Health Network provided activity are required to disclose any relevant financial interest or other relationship with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services that are discussed in an educational activity.

Community Health Network has implemented a process whereby everyone who is in a position to control the content of an educational activity, has disclosed all relevant financial relationships with any commercial interest. In addition, should it be determined that a conflict of interest exists as a result of a financial relationship, it will be resolved prior to the activity.

While offering the CME credit above, this activity is not intended to provide extensive training in the field. ADA accommodations are available upon request.

MQ Pre-Conference - Thursday, April 12

(Additional registration required)

7:30 am - 5:00 pm	Registration Desk Open	<i>2nd Floor Foyer</i>
8:00 am - 12:00 pm	ACMQ Quality Improvement Workshop, Part I (Additional registration required)	<i>Pennsylvania Room</i>
12:00 - 1:00 pm	ACMQ Quality Improvement Workshop Lunch Break , on own	
12:00 - 6:00pm	"Coverage Based on Quality" with Lunch [no CMEs] (By invitation only)	<i>District Ballroom</i>
1:00 - 5:00 pm	Pre-Conference: QI Workshop, Part II (Additional registration required)	<i>Pennsylvania Room</i>
6:00 - 7:00 pm	"Coverage Based on Quality" Reception (By invitation only)	<i>District Ballroom</i>
7:00 - 9:00 pm	Executive Committee Dinner w/ top Corporate Supporters	<i>Georgia Room</i>

QI Workshop Faculty

Julia Caldwell, MD, MHA, CMQ

Assistant Professor of Anesthesiology and Perioperative Medicine, Penn State Health Milton S. Hershey Medical Center

Pingali Chandra Mohan, MD, CMQ

Co-Program Director, Apogee Physicians

Beverly Collins, MD, MBA, MS, DFACMQ

Chief Quality Officer, Health Partners Plans

Mary Reich Cooper, MD, JD

Associate Professor, Healthcare Quality and Safety; Program Director, Jefferson College of Population Health

Ricardo Correa, MD, EsD, CMQ, FACP, FACR, FACHT

Endocrinology, Diabetes and Metabolism Fellowship Program Director, University of Arizona College of Medicine-Phoenix, University of Arizona College of Medicine-Phoenix

Yosef D. Dlugacz, PhD, CMQ

SVP/Chief Clinical Quality, Education, & Research, Zucker School of Medicine at Hofstra/Northwell

Charles R. Gill, MD, MPH, CMQ

Director, Quality & Compliance, St. Anthony Physicians Group - SSM Health, Inc.

Jerry Jaboin, MD, PhD

Vice Chair Clinical Affairs, Oregon Health & Science University

Arlene Seid, MD, MPH, CMQ, FACPM, FACMQ

Medical Director Quality Assurance, Pennsylvania Department Of Health

MQ 2018 Day 1 - Friday, April 13

6:30 - 8:15 am	ABMQ Board Meeting	<i>Independence Room</i>
7:00 am - 6:00 pm	Registration Desk Open	<i>District Foyer (Lower Level)</i>
7:45 - 8:15 am	Networking Kick-off Breakfast	<i>District Ballroom</i>

ACMQ President

Cindy Lee, MD

Chair, MQ 2018 Scientific Program Committee

8:45 - 10:00 am

General Plenary Session III: ACO Update

District Ballroom

"A Roadmap for ACO Success"

Daniel J. Durand, MD, Vice President of Clinical Strategy, LifeBridge Health

"Analytics to Drive Physician Engagement and Quality Improvement"

Thomas H. Kloos, MD, President Atlantic ACO, Atlantic Health System

Moderator: **John F. Vigorita, MD, MHA, DFACMQ**

10:30am - 12:00 pm

Concurrent Breakout Sessions

Track 1: Outside the US, Senate Room

Moderator: **Howard Kerpen, MD, FACP**

International Accreditation: Improving Quality and Patient Safety Globally

Judith Moomjian, RN, MPA, CPHQ, FACHE, Principal Consultant, Joint Commission International

Improving Quality in Primary Care—Lessons from Ontario, Canada

Tara Kiran, MD, MSc, CCFP, FCFP, Family Physician and Clinician Scientist, St. Michael's Hospital, University of Toronto

Track 2: Fundamentals of Population Health, Pennsylvania Room

Moderator: **Angelo Caprio, MD, PhD, MMM, CPE, FACMQ**

Integrating Quality and Safety into Population Health: An Evolution

Mary Reich Cooper, MD, JD, Associate Professor, Healthcare Quality and Safety; Program Director, Jefferson College of Population Health

MACRA in Population Health

Lorenzo Paladino, MD, Associate Professor, SUNY Downstate College of Medicine

Annual Meeting of Members & Awards Luncheon

Moderators: President **Mark Lyles, MD, MBA, FACMQ** and President-elect **Donald E. Casey, Jr., MD, MPH, MBA, DFACMQ**

1. Call to Order
2. President's Welcome
3. Treasurer's Report
4. *American Journal of Medical Quality* Report
5. Executive Director's Report
6. Election of Officers
7. Installation of Officers
8. Awards & Recognition Ceremony

Founders' Award

Paul Yerkes, MD

2018 Samuel Katims Young Scholar in Medical Humanism

Kirstin Woody Scott, MPhil, PhD

Best Poster Award & Best Trainee Poster Awards

To be announced

2018 Founders' Award

In recognition of long standing national leadership and exceptional ability to foster and support health care quality.

Benjamin Chu, MD, MPH

Dr. Chu has more than four decades of experience as a clinician, administrator and policy advocate. Throughout his career, he has placed strong emphasis on physician integration, population health, patient experience, and health systems innovation to drive for better outcomes and performance. He has been a strong proponent of the integration of health information technology to help drive delivery system change.

Dr. Chu recently joined the Health Practice at Manatt Health Solutions as Managing Director. He is Chair of the board of directors of The Commonwealth Fund and sits on the board of the National Committee for Quality Assurance. Prior to this, he served in many senior level leadership positions including President and CEO of the Memorial Hermann Health System and the Executive Vice President and Group President for Kaiser Permanente's Southern California and Georgia. He was a Robert Wood Johnson Health Policy Fellow in 1990 serving as Legislative Assistant for Health for Senator Bill Bradley of New Jersey. Dr. Chu earned his medical degree at New York University, a master's degree in public health from Columbia University and a bachelor's degree from Yale University.

2018 Institutional Leadership in Quality Award

In recognition of the organization's iconic dedication to the delivery of high quality health care.

ABIM Foundation for the Choosing Wisely® initiative

Accepting Award: **Daniel B. Wolfson**, Executive Vice President and COO, ABIM Foundation

The ABIM Foundation's work focuses on exploring how physician leaders, health care organizations, and public policy can foster medical professionalism at all levels as a means to improve health care for everyone. They recognize that obstacles to fulfilling the ideals defined in the Physician Charter can occur not only on the individual level, but also within an organization and throughout the profession.

The Choosing Wisely® campaign is one of the ABIM Foundation's most well-known initiatives. It was originally conceived and piloted by the National Physicians Alliance through an ABIM Foundation-funded Putting the Charter into Practice grant in 2009.

The goal of the campaign, launched in 2012, has been to promote conversations between clinicians and patients about overuse in health care and that help patients choose care that is: supported by evidence; not duplicative of other tests or procedures already received; free from harm; and truly necessary.

It galvanized medical specialty societies and other clinical organizations to identify tests or procedures commonly used in their fields whose necessity patients should question and discuss with their physician. More than 80 specialty societies have published over 550 recommendations regarding overused tests, treatments and procedures. The campaign and society recommendations received more than 1,700 mentions in journal articles in 2017; thousands of media articles have referenced Choosing Wisely since the campaign began.

Building on its success, the Foundation's efforts have begun to focus on stimulating health care delivery systems to implement Choosing Wisely recommendations on a large scale.

1:30 - 3:00 pm

Concurrent Breakout Sessions

Track 1: Technology Innovation Centers, Senate Room

Adaptive Leadership in Telemedicine and Digital Health

Paul Nagy, PhD, FSIIM, Deputy Director, Johns Hopkins Medicine Technology Innovation Center

Using E-consults to Manage a Population of Patients

David Winchester, MD, Staff Cardiologist North Florida/South Florida VAMC; Associate Professor of Medicine, U of Florida College of Medicine

Susan Kirsh, MD, Director, Practice Management and Access to Care, VA Central Office

Track 2: Transforming Health Care Delivery, Pennsylvania Room

Moderator: **Linda S. Efferen, MD, MBA, FACP, FCCP, FCCM**

Cultural Competency & Health Literacy: Raising Awareness of a County

Althea Williams, MBA, Director, Community and Practice Transformation, American College of Healthcare Executives

Eliminating Barriers: Mitigation of Social Determinants of Health

Melissa Favaloro, LMSW, Director of Care Management, Suffolk Care Collaborative

Community and Individual Partnerships to Promote Health

Amanda Chirco, MED, Project Manager, Community Health Initiatives, Suffolk Care Collaborative

3:00 - 3:30 pm

Break

- *Elevating Quality Standards*
- *Promoting Research*
- *Educating Health Professionals*
- *Supporting YOU*

Join the Best Team in Medical Quality

Since its inception in 1973, The American College of Medical Quality (ACMQ) has worked to provide leadership and education in health care quality management. Our successes throughout the years are a direct result of the ambitious and committed efforts of our membership, of which many of your colleagues are a part.

ACMQ is the organization for health care professionals responsible for providing leadership in quality and safety outcomes, who want or need the tools, experience and expertise to improve the quality and safety of patient care.

Membership in ACMQ provides you with a gateway to resources, programs, professional development opportunities and a greater recognition of quality issues by the entire health care field.

We do this by supplying members with our peer reviewed Journal; access to a network of the top minds in the field; and the premier annual conference for the quality community. Unlike other specialty organizations we focus exclusively on your quality team and its success as shown by ACMQ's 40-year legacy of pioneering support for the implementation and innovation of quality based medicine.

That's why we'd like to invite YOU to join the team of hundreds of experienced health care professionals that form the foundation of our community. By joining the College, you will gain access to many features that provides a significant return on your modest membership investment, and raises our collective voice as THE boundary-spanning, silo-breaking, quality organization.

We are a group of health care professionals passionate about medical quality issues and committed to improving the health care system.

Abbott

At Abbott, we're committed to helping people live their best life through the power of health. For more than 125 years, we've brought new technologies to the world—in nutrition, diagnostics, medical devices and branded generic pharmaceuticals—that create more possibilities for more people at all stages of life.

www.abbott.com

DermTech

DermTech is the global leader in molecular dermatology, bringing precision medicine to the diagnosis and treatment of skin disease. We market and develop products that facilitate the early detection of skin cancers, assess inflammatory diseases, and customize drug treatments. DermTech analyzes skin biopsy samples collected non-invasively using an adhesive patch rather than a scalpel. For additional information visit dermtech.com.

Exact Sciences Corp.

Exact Sciences Corp. (NASDAQ: EXAS) is committed to playing a role in the eradication of colorectal cancer. As part of this mission we are proud to introduce Cologuard, the first noninvasive screening test for colorectal cancer that analyzes both stool DNA and blood biomarkers. In a 10,000-patient study, Cologuard found 92 percent of cancers and 69 percent of the most advanced precancerous polyps in average risk patients. To learn more about Cologuard, visit CologuardTest.com.

Illumina

Illumina is a leading developer, manufacturer, and marketer of life science tools and integrated systems for large-scale analysis of genetic variation and function. These systems are enabling studies that were not even imaginable just a few years ago, and moving us closer to the realization of personalized medicine. With rapid advances in technology taking place, it is mission-critical to offer solutions that are not only innovative, but flexible, and scalable, with industry-leading support and service. www.illumina.com

Interpace Diagnostics

Interpace Diagnostics is a provider of molecular testing for numerous types of cancer. The Company offers ThyGenX[®] and ThyraMIR[®] for indeterminate thyroid nodules; PancreGen[®] and PanDNA[®] to help identify those pancreatic cysts most likely to develop in to pancreatic cancer; RespriDx[®], a molecular test that differentiates metastasis from new primary lung tumors, and BarreGen[®], a molecular test that measures mutational load, enabling physicians to identify cases that are most likely to progress to esophageal cancer.

Intersect ENT

Intersect ENT is a medical technology company dedicated to advancing the treatment of ear, nose and throat conditions through evidence-based innovation, providing physicians with solutions to overcome clinical challenges and improve the quality of life for patients. The company's core technology is its bioabsorbable drug release platform. Intersect ENT's current portfolio of sinus implants is designed to provide mechanical support and localized drug delivery for chronic sinus conditions.
